Product Solutions

Riteks is a leading supplier of high quality concrete admixtures for the Ready-Mix, Precast, and Dry-Cast industries. Riteks Concrete Admixtures will significantly improve the properties of your concrete to optimize costs, workability, and durability throughout the production and application processes. Our extensive range of traditional and next generation admixtures helps to improve both the plastic and hardened properties of concrete, providing both consistent and reliable results for our customers and end users.

Technical Solutions and Support

Riteks technical sales experts will assess your individual applications and provide you with the correct product options based on your unique material conditions and job requirements. Riteks experienced highly trained staff can provide solutions for all of your concrete admixture needs including difficult or unique concrete applications.

Riteks can provide complete installations of dispenser systems with an experienced support staff to ensure quick, trouble-free operation, and maintenance. Whether at a batch plant or an on-site remote location, Riteks will provide accurate, reliable, and quality results.

High Range Water Reducers

(ASTM Type A & F)

EvoTek™ 2000

EvoTek™ 3000

EvoTek™ 3015

EvoTek™ 4000

EvoTek™ 5000

EvoTek™ 7000

EvoTek™ 7015

Mid-Range Water Reducers

(ASTM Type A & F)

NexCrete™ 1200 (ASTM Type A & G)

NexCrete™ 1210

Nexcrete™ 1310

Nexcrete™ 1410

Nexcrete™ 1610

Nexcrete™ 1710

Water Reducers

(ASTM Type A & D)

FloTek™ 1240

FloTek™ 1225

Accelerators

AdvanSet™

AdvanSet™ NC (Non-Chloride)

Set Retarders/Hydration Control

SYAD 75™

SYAD 40™

HydraStop™

Air Entrainers

A-Train VR™

A-Train PR™

Rheology Control

Slump Retain 240™

Powdered Admixtures

HydraStop™ P

Calcium Nitrate 94 P

EvoTek™ 2010 P

D-Train™ P

FloFill™ P

Performance Fibers

PE 200 Fiber

N 200 Fiber

F Macro Fiber

M Macro Fiber

Waterproofing Systems

Kryton - Krystol Internal Membrane (KIM)
